

Quests

Home away from home; or is it? We all miss Black Rock City, the place we call home, but maybe we can find home somewhere else too! We also want to get home as soon as possible. Maybe Google maps will help us find the shortest way there! As air travel is very risky in this current climate, cars are your only means of transportation. This is your chance to be a true Road Warrior! The answer to this quest is the number of total miles (rounded to the nearest whole number) of the shortest possible driving route between all of the Black Rock's in the US (given by exact Lat/Long coordinates) listed below, from the starting to ending destinations.

Starting destination- **Black Rock Forest**, New York: 41.419898, -74.009531

Finish destination- **Center Camp**, Black Rock City, Nevada: 40.781254, -119.213260

All the places in between:

- Black Rock, Arizona: 36.978614, -113.644113
- Black Rock, Arkansas: 36.108264, -91.099431
- Blackrock, California: 36.929597, -118.233427
- Black Rock Harbor, Connecticut: 41.158812, -73.225113
- Black Rock, Indiana: 40.366800, -87.100416
- Black Rock, New Mexico: 35.091469, -108.786924
- Black Rock, New York: 42.934562, -78.901999
- Black Rock, Oregon: 44.881378, -123.493401
- Black Rock, Utah: 38.716321, -112.966297
